

Sprint 2 - User Story 1

Run Documentation

Team S

December 7, 2013

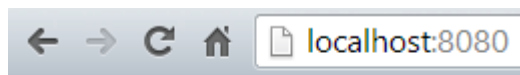

1 Specification

As an admin, I want to define a new teaching session with appropriate fields (date, time, duration, repeat frequency, lecturer, max attendace, compulsory, venue) so that this session can be added to the general timetable.

2 Usage Instructions

1. Once the program is compiled in Spring, the website is accessed from the following URL: `http://localhost:8080/`

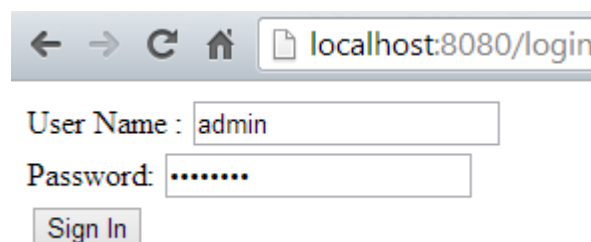

You are presented with a welcome notification.

Welcome!

Click [here](#) to login and add a session.

2. Once you click on the 'here' link-label, a new window gets brought up, where you can log-in as an admin. The username is 'admin' and the password is 'admin123'.

A screenshot of a web browser showing a login page. The address bar displays 'localhost:8080/login'. The page has a 'User Name' label followed by a text input field containing 'admin'. Below it is a 'Password' label followed by a password input field with masked characters '.....'. At the bottom is a 'Sign In' button.

3. A new windows appears for the administrator to set-up a new session for that can be added to the general timetable.

← → ↻ 🏠 localhost:8080/admin_panel

Add New Session

Date : Time :

Duration :

Repeat Frequency : ▼

Lecturer :

Max Attendance : ▲▼

Compulsory : ☐ yes ☒ no

Venue :

Add Session

← → ↻ 🏠 localhost:8080/admin_panel

Add New Session

Date : Time :

Duration :

Repeat Frequency : ▼

Lecturer :

Max Attendance : ▲▼

Compulsory : ☒ yes ☐ no

Venue :

Add Session

4. Once we select the option to add a new session, we get the following output:

Sessions

Date: 12-02-2013

Time: 10:00

Duration: 2:00

Repeat Frequency: 1

Lecturer: Mr. Singer

Max Attendance: 2

Compulsory: true

Venue: BO Level 3 Labs
