# Sprint 2 - User Story 1
# Build Documentation

Team S

December 9, 2013

## 1 Build Instructions

1. Download and unzip the source repository, or clone using GIT:

   git $https://github.com/RafiC13/Sprint2_1.git$

2. Setup a new project in Sprint IO.

3. Run and compile the project by pressing F5.

4. The project should be now running. See **Run Documentation**.
